

STEPS TO CONQUER SHADOW IT

1

GAIN VISIBILITY

Illuminate Your Cloud Footprint

Which apps are used by employees?

What accounts can employees access after leaving?

Are there excess licenses being paid for?

#1 ATTACK VECTOR FOR
HACKING IS STOLEN
CREDENTIALS.

2

PASSWORD HYGIENE

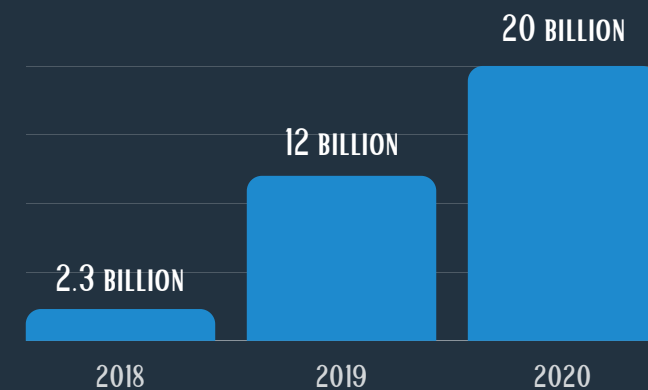

Check Accounts For Password Security

Are passwords complex enough?

Have they been reused multiple times?

Have they been stolen already?

EACH PERSON HAS
AROUND 200
ONLINE ACCOUNTS ON
AVERAGE.

NUMBER OF LEAKED RECORDS SOAR EACH YEAR

CIOs UNDERESTIMATE CLOUD USAGE BY 15-22X

3 RAISE AWARENESS Educate Your Users Continuously

Are all sites safe to share data through?

What password complexity is required?

Should employees change passwords regularly online?

70% OF PASSWORDS
ARE EASILY
CRACKABLE.

4 OUTPACE COMPLIANCE Analyze And Regulate Online Services

Are new processes being created without control?

Are accounts being shared amongst co-workers?

Which users show risky online behavior?

THE AVERAGE
ORGANIZATION USES
1935 UNIQUE
CLOUD SERVICES.
